> VISITS OF FOREIGN WARSHIPS.

New Regulations.

The following regulations have been made by the Governor-in-Council under the Merchant Shipping Ordinance :-

Foreign ships-of-war shall not make any examination or survey of the shores or waters of the Colony either from such ships or by means of boats of otherwise. Foreign soldiers or sailors, if unarmed,

may be landed in the Colony within the harbour limits, without the prior consent of the Governor, provided that when it is desired to land a number of men exceeding one hundred, notice must be given by the eonior officer in command of the foreign ships or troops concerned to the Colonial Secretary, in order that all facilties of which local conditions admit may be given. Applications for permission to land armed parties in connection with funerals or to take part in public coramonies of an exceptional nature will be addressed to the Governor through the Colonial Secretary by the senior officer in command of the foreign ships or troops concerned. No application is necessary in the case, of

No foreign soldiers or sailors shall be landed in the Colony outside the harbour limits from any vessel without the per-mission of the Governor for which application must be made by the senior officer in command of the foreign ships or troops concerned.

SPORTING

Buffs Aquatic Sports.

It was extremely unfortunate that there should be a heavy downpour of rain when the aquatic sports in connection with the Buffs Regiment were being held at the V. R. C. enclosure on Friday evening. Nevertheless was were a large number. of spectators present. The arrangements were admirably carried out by Liout Still. Private Stiff, G. Co., the Buffs won the duck hunt and the event was of a most amusing character." Mr. Frank, Lammert also rendered invaluable service.

Quartermester Smith, Sergeant Major Barlow and Mr Anderson were the judges in the sports and the results were as

The Governor Explains the Measure.

(Continued from Page 5.)

When they have Been elaborated those of them which are of sufficient importance will be embodied in the new consolidating Ordinance, and this Council will then have an opportunity of thoroughly discussing them. I think that in the circumstances in which we are placed this is a most practicable and most useful course. Meanwhile your will notice that it has been reserved for the Legislative Council to modify either the scale of duties or the fees charged on all new licences created, is to say, the few for private bonded ware-Sex and Character, by O. Weininger 8.50 houses and the fee, for what we call chemists' licences; I will add one word concerning Part VI. which gives certain 225 powers of search. Those powers are nocessary, but it shall be my special care to see that they are not arbitrarily or unnecessarily exercised. They are adopted from the Straits Ordinance, but that Ordinance also gives power for domiciliary and personal search, both of which have been eliminated. as unnecessary here. The powers retained are, in fact, the minimum necessary. I would remind you that these powers already exist under the Opium Consolidating Ordinance which we passed a few days ago. It is unlikely that any respectable people would have their baggage interfered with but without such powers any coolie could bring into the Colony a handbag full of liquor either foreign

or Chinese and could defy the revenue officer. It is necessary for the Government to have power in reserve to protect its revenue and also to have power to protect those who are paying their full duties and thos) who are paying licence fees! It is specially necessary as regar's samshu, and we cannot impose it on one class of liquor to the exclusion of others. The search of gedowns is, I think you wil all admit, a very necessary power. That already exists in the case of morphia and arms. The stringency with which that search is prosecuted will entirely depend upon the co-operation of the firms in the plony to assist the Government in preventing smuggling if they connot do it alone. I am told that the intimate know-

ledge which the various firms have of each other will be sufficient to prevent any systematic smuggling. I can assure you there is no one at this table who is more jealously auxious to safeguard Horigkong as a free port than I am myself. (Applause). We propose to provide only a small preventive service, relying, as I said on the co-operation of the big firms in the Colony. on the heavy penalties againstany effenders under this Ordinance, and the risk to their good name which will be involved on anyone who contravenes it. Liquor, after all, is not like drugs. It is a bulky article The profit on smugling it could only be worth while if the smu gling takes place in large quantities, whereas the profit on a single case of morphia is very large. The sole object of the Government in introducing this Bill is to raise revenue on intoxicating liquors in a way that will cause least inconvenience to the community and the least disturbance to trade. It is a difficult matter, the more sons the restrictions now placed on opium may tend to an increase in the consumption of liquor by the Chinese. Therefore, in selecting this particular form, that is to say, a revenue from intoxicating liquors, we are acting not only in the interests of the revenue, but, as I take it, in the peace and good order of this Colony. Already I am informed that the Chinese community consume as much if not more foreign liquor than the Europeans. Our object is to tax the consumer and not the vender. The latter has paid sufficient-by paying the existing fees! The Bill before you is a sincere attempt to give effect to the wishes of the community as they are represented by the unofficial members of this Council. "I look confidently to

the unofficial members to assist the Government in passing this Bill at an early date, and I look confidently to the community to make it'as effective when it has been passed. (Applause.), " Hon. Mr Hewett - I have a few remarks which I think it advisable to make, if you will allow me. I understand the member who represents the Justices of the Peace also wishes to say something, and it would rather clear the ground if you allowed us to say what we have in our minds. In the first place, we all know this Bill has of necessi y been prepared somewhat hur-riedly, and as a matter of fact I think no member of the Council had seen a copy of this Bill before yesterday afternoon. For myself I can only say that this morning was the first time I had an opportunity of carefully studying the previsions of the Eill. There is much to recommend it, but I think your Excellency, if you allow me to say so, is somewhat optimistic in the belief you have expressed as to the manner in which this Bill will be accepted by the community. The Bill appears to be in many respects highly contentious, and I think before it is passed very considerable modifications will be asked for. This is a new departure. We recognise the necessity for increasing the revenue of the Colony at a very early date, and therefore this change of administration must, of course, be carried through in the shortest possible time but supply fresh Coal straight from the Mines.

a Bill of this far reaching importance cannot Steamers load at the Wharves. Quick possibly be rushed through within a few despatch. wooks. It must be carefully considered not only by the logislators of the Colony but by the public at large. We must see in striving to make up the necessary increase in our revenue that we do not deal a serious blow to the trude of the Colony, The Bill requires to be modified to meet the riews of the community at large, largely business men, as well as those degrated in LONDON DIRECTORY that particular trade. When once a reasonable Bill is put before the Chamber your

Excellency can rely upon the hearty and honest co-operation of the greater section of the community. This Bill does not, 1 think meet the views of a certain section of the community, particularly in reg kd to domiciliary visits, and there are one or two points to which your Excellency referred. such as hottling, blending, and ware-housling-a very important branch of the trade of the Colony which require consideration. Your Excellency spoke of ships returning manifests of liquor on board, but, as I pointed out to your Mixeelingy privately on a previous occasion. it seems to me that it might be a hardship to ask ships to return, manifests of all the cargo of liquor in the principal provincial towns and induson board. It should be only on the liquor

besit we should expect if the Bill is carried into force as it stands, to have a revenue of something over a million, sependelly go your Excellency has said that the cost of arbradantities senside aoutge por doug small. I thought it was right to ask your Erosiency to allow ma to make these bad no opportunity of consolting my unofficial colleagues—in order to show as far as L can understand, that this question will require much more consideration and possibly alteration than your Excellency

seems to think dostrables as a Hon. Mr Murray Staward-Your Excollendy, - To is true, as the hoot, member for the Chamber of Commerce has just said, that I had intended with your permission briefly to address the Council even st this early stage, with a view to the acceleration of the passage of the Bill through the second reading. My idea in so doing to indicate to the Government where thoir proposals are likely to excite opposition. Originally, opposition to putting on an import duty aross out of fear this could not be done without creating the whole paraphernalia of a Custom House. That fear I formerly shared. The idear seemed to be incompatible with the preservation of Hongkong as a iree trade port. No one believes more firmly than ! do in the absolute necessity for maintaining that Atam interview granted to the unofficial members at Government House, which your Excellency has referred. spoke strongly against examining the luggage of European passengers by cosan steamers. It was only because so many gentlemen who are in a position to know how the trade is worked were found to maintain that, such things need form no part, of a scheme of import duty that I ever agreed to the idea of imposing one. In subscribing to the unofficial members! re-commendation to impose one, I was actuated by the belief that such petty smuggling as might be im-probably attempted from ocean ateamers by European passengers need not seriously engage the attention of the Government, whose business of collecting the duty was to be conducted through the Harbour Office on broad and simple lines calculated to create the least possible amount of friction. Only on such lines did I advocate an import duty, and only in so far as such lines are adhered to by the terms of the Bill does it command my support. I am opposed to the idea of granting immediately powers which provide for the institution of a Customs service—powers conferred by sections 30 to 35. The latter clause, providing for domiciliary visits in dwelling houses, is particularly repugnant to me. Your Excellency has just said that you will undertake that these powers will not be invoked veritiously. I am sure that such will always be your Excellency's desire, But, nevertheless, I deprecate putting such a power into the hands of subordinate officers until the absolute necessity for it has

been proved to exist. I suggest that regulations conferring such powers might be made hereafter by resolutions of this Council, to be passed when, in the public interest, it is soon to be necessary: I suggest that the Government should so modify this Bill. I quite appreciate the necessity of enacting it quickly, if at all.

(Applause.) His Excellency-Before I put the motion I would like to correct a statement made by the hon, member who represents the Chamber of Commerce. -I said that the dulies are identical with those in the Straits Settlements. They appear perhaps larger in the Bill, but I think if the honmember works them out on the basis of the fixed exchange in the Straits he will find they are exactly identical. The Bill was read a first time.

THE PROPOSED LIQUOR ORDINANCE

GRAND ROYAL -EL TAMARINDO THE Colony of Hongkong has the opportunity during the next, few days of critically examining and discussing the proposed Liquor Ordinance which was OO formally introduced at the meeting of the India homeward. It is hoped that he will be Legislative Council on Friday afternoon. The present proposals are much more in Hongkong before he leaves this quarter, be paid out of some common fund in com- issue the bystanders concluded that this equitable than those originally placed

before the Council, for they affect the whole community and do not press unduly on one particular class as the sug-18 avreage in liquor licenses would have done, while great care seems to have been exercised in trying to meet the special exigencies of the Colony coursewhen we have such a radical departure from the long established principles mean 14.90 and the minimum 3.97. hitherto governing the fiscal policy of Hongkortz as this proposed Ordinance will of necessity hring about, a certain

amount of opposition must be expected.

This the Government and the friends of

the Bill are fully prepared for, but we do

though we observe that the Fion Mr. Hever, who represents the Chamber of Commerce in the Legislative Council, hought it necessary to warn His Expelency that the Bill was in many respects was delivered in London on the 10th inst. highly contentious and in the closing senunces of his speech expressed the belief that the questions raised would require more consideration and possibly more a terration than the Governor at the moment might think desimble. The Hon, Mr. MURRAY STEWART, the representative of the Justices of the Peace having explained why he had come round to the opinion that the time had arrived for Hongkong to impose excise duties on spirituous liquors hinted at the points wherein he thought. opposition might arise. He was, for instance, opposed to the granting to record. subordinate officers the power to make searches and domiciliary visits, until the absolute necessity for so doing had been amply proved to exist, and h to diminate from the bill the clauses confirring such powers and hereafter

lead to any serious embarmesment or

by resolutions of Council enact regulations conferring the same as the force of Mr. Munnay STEWART'S objection, but we are afraid that the Government will not be able to see its way to falling 71bs, and up to 11lbs, \$1. in with his suggestion. If it does, it will have the effect of starting a new system of revenue-raising riddled with opportunities for ever-enlarging leaks Telegraphic Address, 'MAIL,' Hongkonz, and the mischief which would subsequently have to be repaired would very quickly be found to have grown beyond all resonable control. For in the matter of customs dues it is always the opportunity which creates the evader, and if the powers which the Government now seeks to give to officers not below th

giving opportunities which a very con-

sideable portion of the Colony's popul-

ation-human nature here being much

the same as elsewhere-will not be slow to take advantage of, occasion to offer objection to the scale of the proposed new duties. He thought they were too high and in answer His Excellency pointed out that the proposed duties were identical with these imposed in the Straits Settlements, if allowance is made for the fixed exchange of the Straits. How much revenue the proposed new duties will bring into the Treasury, it is difficult at present to estimate. Mr Hewerr is of opinion that the return will be something over a million dollars, but we are afraid that he is a little too sanguine, at least for the first year. We have yet to find out what the new preventitive service Ld., at Messri Jardine, Matheson Co.'s | will cost, as well as the cost of collecting the does, while another factor operating for some considerable period will be the large stocks of liquor which will be imported to forestall the imposition of the ought not to look to them in case of new deties. HONGKONG FOOTBALL ASSOCIATION.

Mr Frank Brown presided at the first annual meeting of the Hongkong Football Association held at the Y.M.C.A. rooms last evening. There was a thoroughly representative gathering from the various

clubs of the Colony. The Secretary (Mr A. Storrie) having reported that nine clubs had become affiliated and had paid their subscriptions (sau ta'oi) for admission to the second of \$5, each, the chairman said it was extremely satisfactory that such an Association had been started. He made reference to the good work they had already been able to do, and asserted that part of the policy of the body as laid down in the rules was that while they provided for the proper control and management of dube in the Colony it was to be understood that each club or competition had a right to manage its own internal affairs. Therefore clubs any difficulties arising in connection with grounds or such like matters. EDUCATION. A society has been formed in Fatshan to better the conditions of the private schools in the locality: A meeting was held yesterday and Mr How Shek Po was the chief speaker. In the course of a very lengthy address he deplored the slow improvement made in educational matters in the district. This slowness he attributed to three causes (1) The divergent opinious on education held by local residents; (2) The lack of funds to erect suitable buildings and to employ well qualified teachers; (3) That the so-called reformers had caused much injury to private schools by speaking of

I had possion to atate my views to the Connoil regard. ing the contract system and its advantages and disadvantages, and I observed that in my opinion the contract system had great

disadvantages, when it was likely there would be an alteration in the contract subsequent to the signature by the contracting parties. Under this bill there would be no alteration of contract. In this Bill there is nothing which precludes the system of contract either for European or Chinese liquor should it be found more expedient later to adopt such a system. At the presont time, however, there is great projudice. acainst it, prejudice which I put down to a confusion of ideas between a contract for The Bill before the Council which we the collection of duties such as I have described and a farm such as the opium farm. You will remember that under the contract there is no right of south of private houses or persons or vessels, and that therefore first case the mediation introduced on the two most objectionable features of the farm are · liminated. for the foundation of a chair of aviation.

A most interesting feat was accomplished at Chamonix by an Englishman, M Fawcatt, who, with a mono-cylinder 9-h.p. De Dion motor car climbed from the village of Praz, in the Chamonix Valley to Montenvers, Mer-de-Glace, a height o 5,750ft. He drove his car, his chauffeur and his dog slong the winding zig-rag hillpaths, and at innumerable places where it was impossible to turn he ran the car backwards at the steep incline. This the first time that such a height has been accomplished, and Mr Fawcett received quite an evation from the people at the Montenvers Hotel.

GHOST AT A. WAKE.

The latest ghost story comes from farmer a wife, named Goldrick, a vailed figure, dressed entirely in black, glided into the room and sat down amidst terrified it had come. The mourners were too frightened to question the ghostly visitor, who remained in their midst from eleven ed by the pensants to have been a ghost. Probably a practical joke of a grim description is the key to the mystery.

CHIED ATE AN ENTIREBOX

Spread on Some Creckers-Not the Slightest Injury Resulted from Little Fellow's Escapade - In Most Positive Way Ingredients of

CUTICURA PROVEN PURE SWEET AND HARMLESS

. A New York friend of Cuticum writes the following interesting letter: "My three year old son and heir after being put to bed on a trip across
the Atlantic, investigated the stateroom and located a box of graham
crackers and a box of Cuticura Ointment. When a search was made for the box, it was found empty and the idd

admitted that he had eaten the con-

tents of the entire box spread on the crackers. It cured him of a bad cold

and I don't know what elso." No more conclusive evidence than the above could be offered that every ingredient of Cuticura Ointment is absolutely pure, sweet and harmless. If it may be safely eaten by a young child, none but the most beneficial results can be expected to attend its application to even the tenderest skin or youngest infant. This feeling is shared by mothers and nurses to such an extent that Cuticura Boap and Cuticura Ofat-ment have for many years been unheal-tatingly used throughout the civilized world for preserving, purifying and world for preserving, purifying and beautifying the skin, scalp, hair and hands of infants and children from the hour of hirth. And greater still, possible, is the confidence reposed i Cuticura Remedies for the treatment of torturing and disfiguring humours of the skin and scalp. The suffering which they have thus alleviated among the young and the comfort they have af-forded worn-out and worried parents have led to their adoption in countless homes as priceless agents in the speedy, permanent, safe and economical treatment of infantile and buth humours, eczemas, rashes, irritations, inflamma-

scaly and pumply humours when all other remedies suitable for children fail. Cuticum Remedies are sold throughout the world.
